Be Sure With The Helbichs all over the World

You can meet Nikolaus Helbich everywhere. The likeable health insurance specialist talks to you over a nice cup of coffee, say, across from Carnegie Hall between your dentist appointment and your lunch date. In a quick New York minute, if you like, he tells you all you have to know about the perfect coverage for all your health insurance needs. But if you don't even have the time for that, that's also not a problem either. "I correspond with a lot of my clients via phone, email and fax", says Nikolaus. They live all over the World, not only in the United States, but also in Canada and South America. He, together with his partner Adelheid Helbich of [German Health Plans Worldwide](#), has always good advice for those tricky questions about the right plan. Are you an entrepreneur who wants to insure his foreign employees? The Helbichs have a solution. You work in the States or in South America only for a few years and want to go back to your home country? "We advice emigrants and expatriates to choose a European private health insurance with full coverage", suggests Helbich. Even for [students and interns](#) who come to the United States, the Helbichs are there for you with very affordable rates. Mind you, by the way: Nikolaus Helbich is also very health conscious himself. Hold the sugar for this cup of coffee please and "no thanks" to the donut.
